AUTOMATIC SHORT CIRCUIT FIRE SAFETY

ARMY EQUIPMENTS ACCESSORIES

Welding Sets

Flameproof Torch

Automatic Short Circuit Fire System is a simple and cost effective fire protection of small enclosures. The system consists of a heat sensitive tube made of special plastic which is closed by a stainless steel fitting on each end. The tube has both storage and detection function which means that the extinguishing agent is stored directly in the tube and no additional storage device like cylinder is needed. The Automatic Short Circuit Fire system uses which is an extremely effective, clean and people-safe extinguishing medium.
